Proposed Regulations

CORPORATE AFFAIRS

Order Amending Subsection 11.18(3) and (4) of the Trade-Marks Act, to implement one of Canada's obligations under the Agreement between Canada and the European Community on trade in wine and spirit drinks (the Agreement). One of Canada's commitments as part of the Agreement was to phase out the list of generic names for wines, as well as two generic spirit names, "Grappa" and "Ouzo," found respectively in subsections 11.18(3) and (4) of the Trade-marks Act. With respect to wines, the names "Bourgogne," "Burgundy," "Rhin," "Rhine," "Sauterne" and "Sauternes" will be deleted on December 31, 2008. Wine names that bear significant importance to Canadian wine producers, i.e. "Chablis," "Champagne," "Port," "Porto" and "Sherry," will be removed from the list on December 31, 2013. With regard to spirits, the spirit drink names "Grappa" and "Ouzo" will be removed from the list of generic spirit names in subsection 11.18(4) of the Act on the date of entry into force of the Agreement. With respect to "Tokay," a wine mainly produced in Hungary, this wine name will be deleted from the list under subsection 11.18(3) of the TMA on the date of entry into force of the Agreement, given that Hungary is set to accede to the European Union shortly and that it would therefore have both rights and obligations under the Agreement. (Published in the Canada Gazette Part I on February 7, 2004)

SI/2004-12

Order 2003-87-11-02 amending the Non-Domestic Substances List
(Approved February 10, 2004) (Published in the Canada Gazette, Part II only)

Canadian Environmental Protection
Act, 1999

Proposed Regulations

ENERGY

Regulations Amending the Energy Efficiency Regulations, to increase the minimum energy efficiency of gas-fired and electric storage water heaters, to increase the efficiency of clothes washers and to introduce a new requirement for the efficiency of exit signs. This amendment will also introduce regulations for water chillers used to cool large buildings. Certain refrigerants in water chillers are being phased out, and these new regulations will help ensure that replacement equipment is more energy efficient. This amendment will update the methods for testing the energy efficiency for clothes washers, dishwashers, and storage water heaters. Test methods are revised to take into account equipment changes, improve accuracy, and ensure that the test method is representative of actual use of the equipment. For dishwashers, the method of calculating annual energy consumption for the EnerGuide label will change. The test procedure will include a modified test for "soil sensing" dishwashers. (Published in the Canada Gazette Part I on February 14, 2004)

Proposed Regulations		
ENVIRONMENT		
	Regulations Amending the Wildlife Area Regulations & Regulations Amending the Migratory Birds Regulations , to (i) update the definition of non-toxic shot to include tungsten-bronze-iron shot as an approved non-toxic shot alternative, and (ii) ensure that the definition is consistent in all of Environment Canada's wildlife regulations. This year, after scientific review, the Canadian Wildlife Service approved tungsten-bronze-iron shot as a non-toxic shot alternative. All available evidence indicates that this tungsten-bronze-iron shot is not toxic to migratory game birds or their environments. As a result, it is proposed that both regulations be amended to incorporate this new type of shot and to ensure consistency in regulatory requirements. (Published in the Canada Gazette Part I on February 21, 2004)	Canada Wildlife Act & Migratory Birds Convention Act, 1994

HEALTH		
	Regulations Repealing the Radiation Dosimetry Services Fees Regulations , to repeal the Radiation Dosimetry Services Fee Regulations that define the fees, products and services for the National Dosimetry Services (NDS). The repeal of the Radiation Dosimetry Services Fee Regulations is intended to allow NDS to take proactive measures to balance revenues with expenses and to react to required changes in a responsive manner. (Published in the Canada Gazette Part I on February 28, 2004)	Financial Administration Act

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

JUSTICE

Regulations Amending the Application of Provincial Laws Regulations, to provide that the laws made applicable to the prosecution of contraventions in Manitoba shall be read, with any modifications that the circumstances require, as if section 530 and paragraphs 530.1(a) to (h) of the Criminal Code were contained in those laws. As a consequence, the contravener will have the same language rights as if he or she had been prosecuted pursuant to the summary conviction process of the Criminal Code. This amendment also corrects an inconsistency in the terminology used in Part I of the schedule to the Application of Provincial Laws Regulations. (Published in the Canada Gazette Part I on February 28, 2004)

Contraventions Act

Regulations Amending the Contraventions Regulations, to replace the short-form descriptions of contraventions to the Boating Restrictions Regulations, the Small Vessels Regulations and the Competency of Operators of Pleasure Craft Regulations and designate as contraventions several offences under these three regulations. Fines for these contraventions are set to \$100 or \$250 depending on the contravention. (Published in the Canada Gazette Part I on February 28, 2004)

Contraventions Act

CONSUMER AFFAIRS		
	Lighters Regulations and Order Amending Part II of Schedule I to the Hazardous Products Act (Lighters) , to eliminate the qualifying phrase "intended for use for cigarettes, cigars and pipes" from the definition of lighters and to amend some sections of the Regulations that could be interpreted as imposing record-keeping requirements on manufacturers. (Published in the Canada Gazette Part I on March 13, 2004)	Hazardous Prod- ucts Act
	Regulations Amending the Radiation Emitting Devices Regulations (Tanning Equipment) , to introduce new standards that would control more stringently ultraviolet radiation lamps used in tanning equipment and make it mandatory that better and more accurate information on the health effects of ultraviolet radiation accompany the equipment at the time of sale or resale. (Published in the Canada Gazette Part I on March 13, 2004)	Radiation Emitting Devices Act
FOOD AND DRUG		
	Regulations Amending the Food and Drug Regulations (1242 Erythritol) , to permit the use of erythritol in the as a carrier for intense sweeteners in table-top sweeteners and as a sweetener in dietetic beverages, fat-based cream fillings and toppings, dietetic cookies and wafers, soft and hard candies, and chewing gum at the specified maximum levels of use and to require that the label of a food product containing erythritol indicate the amount of erythritol added to the product expressed in grams per serving of stated size. (Published in the Canada Gazette Part I on March 13, 2004)	Food and Drugs Act

University of Toronto Libraries

Toronto, Ontario, Canada M5S 1A5

PARKS

Order Amending the Description of Wood Buffalo National Park of Canada in Schedule 1 to the Canada National Parks Act, to withdraw lands from Wood Buffalo National Park of Canada for purposes of entitlement to land by the Smith's Landing First Nation. (Published in the Canada Gazette Part I on March 13, 2004)

Canada National
Parks Act

Regulations Amending the National Parks Aircraft Access Regulations, to make changes to: reflect the new names for some national parks and national park reserves; adjust the co-ordinates of existing landing and take-off sites for Ivvavik National Park of Canada, Kluane National Park of Canada and Nahanni National Park Reserve of Canada; add new landing and take-off sites for Ivvavik National Park of Canada, Kluane National Park Reserve of Canada and Quttinirpaaq National Park of Canada; set out landing and take-off sites for a number of other national parks in the north; specifically, Aulavik National Park of Canada, Tukturnogait National Park of Canada, Vuntut National Park of Canada and Sirmilik National Park of Canada; update the definition of "aircraft" in the Regulations so that it is consistent with the definition in the Aeronautics Act; and add an amendment to the Regulations so that they would not apply to non-motorized aircraft incapable of transporting persons, such as kites and weather balloons, as regulatory controls for the use of such devices are not necessary. (Published in the Canada Gazette Part I on March 13, 2004)

Canada National
Parks Act

Regulations Amending the Town of Jasper Zoning Regulations, to reduce building heights in the Town, to ensure consistency with direction set out in the Jasper Community Land Use Plan approved by the Minister of Canadian Heritage in June 2001. Amendments are also being proposed to re-zone two lots from R2 (two-family dwelling district) to R3 (multiple family dwelling district) to create four adjoining R3 lots. Finally, the amendments would replace the words "Jasper National Park" with the words "Jasper National Park of Canada" so as to correspond with the new terminology used in the Canada National Parks Act. (Published in the Canada Gazette Part I on March 13, 2004)

Proposed Regulations

ENVIRONMENT

Export and Import of Hazardous Waste and Hazardous Recyclable Material Regulations, to protect Canada's environment and the health of Canadians from the risks posed by the transboundary movement of hazardous wastes and hazardous recyclable materials through exports from and imports into Canada and to implement Canada's international obligations. The proposed Regulations will revoke and replace the Export and Import of Hazardous Wastes Regulations (EIHWR) adopted in 1992 under the authority of the former Canadian Environmental Protection Act. More specifically, the most significant revisions and new elements include: separate definitions for "hazardous waste" and "hazardous recyclable material"; a definition of hazardous waste and hazardous recyclable material that will enable progress toward a federal-provincial-territorial harmonized approach to the management of hazardous waste and hazardous recyclable material; the definitions of hazardous waste and hazardous recyclable material that will enable Canada to prohibit the export of wastes or recyclable materials when informed by a Basel Party in accordance with the Basel Convention, or by the United States, that although the waste is not included on the Basel lists, it is considered hazardous under the legislation of that country and the country has prohibited its import or transit; specific time periods for completing the disposal or recycling operations once the hazardous wastes or hazardous recyclable materials are accepted at the authorized facilities; criteria that the Minister will take into account, prior to refusing to issue an export, import and transit permit, to form an opinion as to whether the hazardous waste or hazardous recyclable material will be managed in a manner that will protect the environment and human health; elements to be contained in the plans for reduction or phase out of exports of hazardous wastes destined for disposal; facilitation of recycling, by excluding from the definition of hazardous recyclable material certain low-risk recyclable materials, and by extending the \$1-million liability insurance requirement for Canadian importers and Canadian exporters to movements of hazardous recyclable materials (the current requirements are \$1 million for movement of hazardous recyclables within the Organisation for Economic Co-operation and Development [OECD], and \$5 million for movements of hazardous recyclables to non-OECD countries, in contrast with the \$5 million required for movements of hazardous wastes); and a new manifest form that is based on the information elements of the OECD movement document. This form will replace the existing manifest to distinguish international movements from domestic movements, and will contain additional information necessary for these movements. (Published in the Canada Gazette Part I on March 20, 2004)

279	Approve the Corporate Plan of the National Museum of Science and Technology for the 2004-2005 to 2008-2009 fiscal period. (Approved March 23, 2004)	Financial Administration Act
284	Approve the five-year Corporate Plan of the Canada Deposit Insurance Corporation for the 2004-2005 to 2008-2009 fiscal period. (Approved March 23, 2004)	Financial Administration Act
Proposed Regulations		
FOOD AND DRUG		
	Regulations Amending the Cosmetic Regulations , to strengthen the protection of the health and safety of Canadians with regard to the use of cosmetic products. The proposed amendments to the Cosmetic Regulations would require that cosmetic manufacturers declare ingredients on a label or exterior wrapping of all cosmetics. Other amendments would clarify existing requirements or administrative processes. (Published in the Canada Gazette Part I on March 27, 2004)	Food and Drugs Act
	Regulations Amending the Food and Drug Regulations (1377 ☐ Foramsulfuron) , to establish a Maximum Residue Limit (MRL) of 0.01 parts per million (p.p.m.) for residues of foramsulfuron resulting from its use in field corn grain (the kernels of field corn). (Published in the Canada Gazette Part I on March 27, 2004)	Food and Drugs Act
	Regulations Amending the Food and Drug Regulations (1378 ☐ Fluazifop-butyl) , to establish a Maximum Residue Limit (MRL) for fluazifop-butyl of 0.1 p.p.m. in blueberries. This proposed regulatory amendment would also amend the English chemical name of fluazifop-butyl in order to comply with international nomenclature conventions. (Published in the Canada Gazette Part I on March 27, 2004)	Food and Drugs Act
HEALTH		
	Pest Control Products Sales Information Reporting Regulations , to specify in detail what information registrants must report on each of their registered pesticides and when to report it. The proposed Regulations would require registrants to submit an annual report to the Minister indicating for each of their registered pesticides the quantity, in kilograms or litres, that was made available	Pest Control Products Act

University of Toronto Libraries

Toronto, Ontario, Canada M5S 1A5

for sale to users in each province and territory during the previous calendar year. The sales information would be required for all end-use products, active ingredients and manufacturing concentrates, including products that have emergency or temporary registrations. Registrants would also be required to provide available information on the sales of one or more pesticides within 15 days of a request from the Minister for the purpose of responding to a situation that endangers human health or safety or the environment or if needed in order to make a regulatory decision. (Published in the Canada Gazette Part I on March 27, 2004)

PARKS

Order Amending the National Historic Parks Order, to make a number of changes relating to national historic sites, including: change the term "national historic park," which appeared in the former National Parks Act, to the term "national historic site," which appears in the new Canada National Parks Act; change the names of the historic parks that appear in the current Order to reflect the new terminology (Lower Fort Garry National Historic Park, for example, would become Lower Fort Garry National Historic Site of Canada); identify the appropriate provisions of the new Canada National Parks Act that could be extended to the national historic sites. The latter include the provisions to: (a) give the Minister of the Environment responsibility for the administration, management and control of the national historic sites; (b) require the Minister to consult on the development of national historic sites policy and the formulation of management plans; (c) allow the Governor in Council to make regulations respecting the preservation, control and management of the national historic sites; (d) confer powers on park wardens and enforcement officers; and (e) set out the fines and penalties for contravention of the Act and regulations. (Published in the Canada Gazette Part I on March 27, 2004)

Parks Act

TRANSPORTATION

Navigation Safety Regulations, Regulations Amending the Charts and Nautical Publications Regulations, 1995, Regulations Amending the Crewing Regulations, and Regulations Amending the Ships Station (Radio) Technical Regulations, 1999, to give effect to new international requirements contained in Chapter V (Safety of Navigation) of the International Convention for the Safety of Life at Sea, 1974 (SOLAS). The new international requirements entered into force on July 1, 2002. The proposed regulations will apply to Canadian ships in any waters and to non-Canadian ships in Canadian waters and shipping safety control zones or engaged in the coasting trade. It will replace the Navigating Appliances and Equipment Regulations, the Pilot Ladder Regulations and section 38 of the Ship Station (Radio) Technical Regulations, 1999. Since some of the SOLAS Chapter V requirements pertain to nautical charts and publications, amendments are also being proposed to the Charts and Nautical Publication Regulations, 1995. In addition, an amendment is being proposed to the Crewing Regulations to address certification of operators of electronic chart display and information systems. (Published in the Canada Gazette Part I on March 27, 2004)

Proposed Regulations

ENVIRONMENT

Regulations Amending the Ozone-depleting Substances Regulations, 1998, to ensure that users that might be unable to switch to non-ozone depleting substance alternatives have access to HCFCs while not undermining Canada's overall consumption reduction commitment. This would permit, in certain circumstances, customers of allowance holders to have access to some HCFCs until their conversion to non-ODS alternatives is complete. The proposed regulations would also prohibit the export Halons and CFCs, with the exception of export for destruction or essential purposes. (Published in the Canada Gazette Part I on April 3, 2004)

Canadian Environmental Protection Act, 1999

Regulations Amending the Vinyl Chloride Release Regulations, 1992, to address concerns identified by the Standing Joint Committee for the Scrutiny of Regulations. The proposed Regulations, mostly administrative in nature, would also require that records be kept for a period of five years instead of three years. (Published in the Canada Gazette Part I on April 3, 2004)

Canadian Environmental Protection Act, 1999

Total, Partial or Conditional Prohibition of Certain Toxic Substances Regulations and Order Adding a Toxic Substance to Schedule 1 to the Canadian Environmental Protection Act, 1999, to restructure the current Regulations by allowing for greater variation in the controls placed on individual substances to allow for a more flexible management of toxic substances. This restructuring would also facilitate the addition of new toxic substances in the future. The proposed amendments would also: list hexachlorobutadiene (HCBD), N-nitrosodimethylamine (NDMA) and dichlorodiphenyltrichloroethane (DDT) on the Total Prohibition List; introduce new reporting and record-keeping requirements with respect to hexachlorobenzene (HCB), benidine and benidine dihydrochloride; create a permit system for granting temporary exemptions to partial or conditional prohibitions, where it is identified that a transition period will be required to find or implement alternatives to toxic substances; add DDT to the List of Toxic Substances (LTS) on Schedule 1 of the Canadian Environmental Protection Act, 1999 (CEPA 1999), which is a prerequisite for the listing of a substance under the proposed Regulations; and assist Canada in meeting its international obligations respecting dichlorodiphenyl trichloroethane (DDT) under the Stockholm Convention on Persistent Organic Pollutants (POPs). (Published in the Canada Gazette Part I on April 3, 2004)

Canadian Environmental Protection Act, 1999

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1398 - Addition of Ferric Ferrocyanide to Paragraph C.01.040.2(4)(a)), to add Ferric Ferrocyanide (Colour Index 77510) to the Food and Drug Regulations, paragraph C.01.040.2(4)(a), the list of colouring agents permitted in drugs for external use. (Published in the Canada Gazette Part I on April 3, 2004)

Food and Drugs Act

TRANSPORTATION

Marine Transportation Security Regulations, to introduce new security requirements for the marine transportation industry. They would be made under section 5 of the Marine Transportation Security Act (MTSA), and would implement all Part A (mandatory) and most of Part B (guidance) provisions of the ISPS Code consistent with the approach of Canada's major trading partners. The changes would also implement other provisions determined to be necessary based on risk assessments and the need to ensure the unimpeded flow of Canadian maritime trade. The proposed Regulations would affect vessels in Canada and Canadian ships outside Canada that engage on voyages between a port in one country and a port in another country and that: are more than 100 tons gross tonnage; carry more than 12 passengers; are 8 metres or

Marine Transportation Security Act

University of Toronto Libraries

Toronto, Ontario, Canada M5S 1A5

more in length and are engaged in towing a barge astern or alongside or in pushing a barge, if the barge is carrying dangerous goods, other than products, substances or organisms identified in Class 4 of the schedule to the Transportation of Dangerous Goods Act, 1992, in bulk; or are barges being towed astern or alongside or being pushed and are carrying dangerous goods, other than products, substances or organisms identified in Class 4 of the schedule to the Transportation of Dangerous Goods Act, 1992, in bulk. The proposed Regulations would not apply to pleasure crafts, fishing vessels, vessels in dry-dock, dismantled or laid up, or government vessels. Marine facilities that interface with vessels to which the proposed Regulations apply would also be regulated under the proposed Regulations. The term "interface" is defined under the proposed Regulations and includes services provided to vessels. The proposed Regulations also include special requirements for the cruise ship industry, passenger vessels and ferries. Passenger vessels and ferries have the requirement to provide screening after a period the vessel is left unattended, and the alternative of carrying out selective searches and sweeps in place of the screening requirements set out for other vessels. Passenger vessel and ferry facilities have additional security procedures in a marine facility with no designated public access area, establishing separate areas to segregate persons and goods, including vehicles, that have not been screened from those that have. In a marine facility with a designated public access area, sufficient security personnel to monitor all persons in the area and to carry out screening of persons and goods must be provided. Passenger vessel and ferry operators will carry out screening in coordination with the marine facilities with which they interface. (Published in the Canada Gazette Part I on April 3, 2004)

Proposed Regulations

AGRICULTURE

Honeybee Importation Prohibition Regulations, 2004, to reopen the Canadian border to the importation of honeybee queens and their attendants from the continental U.S., by permitting an exemption for the import into Canada of honeybee queens and their attendants from the continental U.S. The prohibition for importing any other honeybees from the continental U.S. would remain in effect. (Published in the Canada Gazette Part I on April 10, 2004)

Health of Animals
Act

CORPORATE AFFAIRS

Regulations Amending the Explosives Regulations, to establish by regulation, fees that were introduced and collected from the affected industries for the period 1993 to 2004. (Published in the Canada Gazette Part I on April 10, 2004)

Explosives Act

FOREIGN AFFAIRS

Schedule 1 Chemicals Regulations (Chemical Weapons Convention), to control the production, possession, use, acquisition and transfer of chemicals included in Schedule 1 of the Convention. The proposed Regulations set out the obligations of licence holders, particularly as regards the discontinuance of activities, domestic transfers, exports and imports and conditions under which licences will be suspended or cancelled. It should be noted that no person shall import or export a Schedule 1 chemical without a permit issued under the Export and Import Permits Act. (Published in the Canada Gazette Part I on April 10, 2004)

Chemical Weapons
Convention Imple-
mentation Act

JUSTICE

Organizations in the Province of Alberta Exemption Order, to exempt from the Personal Information Protection and Electronic Documents Act (PIPEDA) organizations that are subject to the Alberta Personal Information Protection Act, for the collection, use or disclosure of personal information that occurs within the province of Alberta. The PIPEDA will continue to apply to the collection, use or disclosure of personal information in connection with the operations of a federal work, undertaking or business (e.g. banks, airlines, telecommunications companies) in the province of Alberta as well as to the collection, use or disclosure of personal information outside the province or territory. (Published in the Canada Gazette Part I on April 10, 2004)

Personal Informa-
tion Protection and
Electronic Docu-
ments Act

Organizations in the Province of British Columbia Exemption Order, to exempt from the Personal Information Protection and Electronic Documents Act (PIPEDA) organizations that are subject to the British Columbia Personal Information Protection Act, for the collection, use or disclosure of personal information that occurs within the province of British Columbia. The PIPEDA will continue to apply to the collection, use or disclosure of personal information in connection with the operations of a federal work, undertaking or business (e.g. banks, airlines, telecommunications companies) in the province of British Columbia as well as to the collection, use or disclosure of personal information outside the province or territory. (Published in the Canada Gazette Part I on April 10, 2004)

Personal Informa-
tion Protection and
Electronic Docu-
ments Act

TRANSPORTATION

Regulations Amending the Great Lakes Pilotage Tariff Regulations, to reflect an additional 7-percent increase in the Authority's pilotage charges in 2004. This will cover the actual loss incurred by the Authority at the end of the 2003 navigational season and allow it to attain a break-even position at the close of the 2004 navigational season. The proposed 7-percent tariff increase, when combined with the previous tariff increases starting in February 2002, will reflect a 22-percent increase during the period 1994 to 2003. (Published in the Canada Gazette Part I on April 10, 2004)

Pilotage Act

Regulations Amending the Atlantic Pilotage Authority Regulations, to make a number of changes, including increasing the current exemption limit for Canadian registered ships from not more than 1,500 gross tons to 3,000 gross tons and subjecting all Canadian-registered ships over 3,000 gross tons, including fishing vessels, to compulsory pilotage. Other proposed changes include: maintaining the use of gross tonnage as the criterion on which to base pilotage requirements, limits, and exemptions; amending the current exemption for non-Canadian-registered pleasure craft and tugs manned by Canadian masters and officers from "less than 500 gross registered tons" to "500 gross tons or less", to remove the anomaly that currently exists between non-Canadian and Canadian pleasure craft; introducing a new level of pilotage certificate to be known as the "Limited Class pilotage certificate" for officers in charge of a deck watch who hold a certificate of competency under the Marine Certification Regulations and who are assigned to vessels with greater maneuverability such as those engaged in the offshore supply industry; adding a new section 9.1, to allow a waiver of compulsory pilotage in order to facilitate the provision of service to vessels in bad weather or other extreme circumstances where a pilot is unable to safely board or disembark from a vessel at the designated boarding station; and repealing the provisions establishing a fee for the granting of written conditional waivers contained in sections 21(4) and 21(5) of the Regulations. (Published in the Canada Gazette Part I on April 17, 2004)

Pilotage Act

511	Grant an annuity to Andrée Beauregard, widow of the Hon. Jules Beauregard, a retired Puisne Judge of the Superior Court of Quebec, effective December 16, 2003. (Approved April 27, 2004)	Judges Act
Proposed Regulations		
CONSUMER AFFAIRS		
	Bank Holding Company Proposal Regulations , to set out the requirements for the contents of a bank's restructuring proposal, the process for shareholders' approval and the process for Minister's approval. The proposed Regulations allow a bank to bundle a number of transactions into a proposal and request a single Ministerial approval. The proposal may include transactions that establish a holding company, set up subsidiaries of the holding company, transfer assets between subsidiaries, and bring in outside investment into non-bank subsidiaries. However, major transactions, such as a change in ultimate ownership of a bank or bank holding company, would not be part of any proposal and would need to be brought to the Minister under the normal Bank Act rules. (Published in the Canada Gazette Part I on May 1, 2004)	Bank Act
FINANCE		
	Cribs and Cradles Regulations and Order Amending Schedule I to the Hazardous Products Act (Cribs and Cradles) , to improve the protection of the health and safety of the Canadian public, especially children, when using cribs and cradles, by amending the current Hazardous Products (Cribs and Cradles) Regulations, as well as Item 25 of Schedule I to the Hazardous Products Act (HPA). More specifically, the proposed changes would: eliminate toeholds that could enable a child to climb out of a crib and fall to the floor with a risk of injury; increase the side-height requirements from 560 mm to 660 mm for rigid folding and rigid portable cribs to make them similar to the requirement for standard cribs; and update the Regulations, which includes amending Item 25 of Part II, Schedule I, to the HPA, from "Standard cribs, portable cribs and cradles" to "Cribs and cradles" thereby broadening the definition of a crib. The proposals would also: clarify the definitions of the various types of sides in cribs; continue the exclusion of fabric or soft-sided portable cribs from the scope of the Regulations; and harmonize Canadian requirements with those of the United States concerning the safety of crib corner posts. (Published in the Canada Gazette Part I on May 1, 2004)	Hazardous Products Act

HEALTH

Cigarette Ignition Propensity Regulations and Regulations Amending the Tobacco Reporting Regulations, to require manufactured cigarettes to have a reduced likelihood of igniting upholstered furniture, mattresses and bedding in order to reduce the death and injury associated with such fires. More specifically, the proposed Regulations would require all cigarettes manufactured in or imported into Canada as of October 1, 2005, to burn their full length no more than 25 percent of the time during 40 replicate tests on 10 layers of Whatman no. 2 filter paper as described by ASTM E2187-02b. All cigarettes manufactured in Canada will have to meet the ignition propensity standard. Cigarettes manufactured for export have not been exempted. Further, in response to a concern raised by industry regarding the possibility of increased toxicity, proposed amendments to the Tobacco Reporting Regulations would require manufacturers and importers to perform annual toxicity testing on cigarette brands sold in Canada, both prior to and after the ignition propensity standard comes into force. Manufacturers and importers would be required to submit the results of these tests to the Department of Health on an annual basis. (Published in the Canada Gazette Part I on May 1, 2004)

Tobacco Act

--------------	---	------------

Proposed Regulations

ENVIRONMENT

Off-Road Compression-Ignition Engine Emission Regulations, to introduce exhaust emission standards for compression ignition engines ("diesel engines") used for off road mobile applications. The proposed Regulations apply to diesel engines that are found in construction, mining, farming and forestry machines, such as tractors, excavators, and log skidders. Pursuant to section 160 of the Canadian Environmental Protection Act, 1999, they would establish Canadian emission standards aligned with the United States Environmental Protection Agency (EPA) rules for off-road diesel engines. The proposed Regulations apply to engines of the 2006 and later model year, and encompass the U.S. EPA Tier 2 and Tier 3 standards. Environment Canada plans to maintain alignment with the U.S. EPA 2008 (Tier 4) rules for off-road diesel engines, once these are finalized in the United States. (Published in the Canada Gazette Part I on May 8, 2004)

Canadian Environmental Protection Act, 1999

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1014 — Wine Standard), to permit the use of the certain fining agents, pH adjusting agents, fermentation aids, sweetening agents and flushing agents in the production of wine, at specified permitted levels of use, and to increase the maximum level of volatile acidity in wine. Health Canada also proposes to amend the definition of wine to better reflect the definition agreed upon at the international level, namely that wine shall be an alcoholic beverage that contains not less than 7 percent and not more than 24 percent alcohol by volume, produced by the complete or partial fermentation of fresh grapes, grape must or products derived solely from fresh grapes, or any combination of them. (Published in the Canada Gazette Part I on May 8, 2004)

Food and Drugs Act

Regulations Amending the Food and Drug Regulations (1346 — Maximum Residue Limits for Veterinary Drugs), to list new maximum residue limits for veterinary drugs ceftiofur, monensin, pirlimycin and teflubenzuron in foods originating from animals treated with these particular drugs. (Published in the Canada Gazette Part I on May 8, 2004)

Food and Drugs Act

FINANCE

Regulations Amending the Canada Pension Plan Regulations and the Old Age Security Regulations, to simplify certain areas of administrative practice, namely: (a) age evidence requirements under both the Canada Pension Plan Regulations and the Old Age Security Regulations; and (b) marital evidence requirements under the Old Age Security Regulations. In addition, there are two new proposed regulations: one to support the Canada Pension Plan (CPP) Statement of Contributions (SOC) on-line request and the other to support the CPP Retirement Application Acceleration Project. This latter initiative will allow, under certain conditions, the electronic filing of a CPP retirement application. More particularly, proposed amendments to section 47 of the CPP Regulations and section 18 of the OAS Regulations would allow age to be confirmed using the Social Insurance Register, rather than requiring applicants to provide a birth certificate. The Minister will continue to have the authority to request a birth certificate or other evidence where warranted. Other proposed changes would permit on-line applications for a CPP Statement of Contributions and, in certain circumstances, to allow on-line application for a CPP retirement pension. (Published in the Canada Gazette Part I on May 8, 2004)

Canada Pension
Plan & Old Age
Security Act

INTERNATIONAL TRADE

Order Amending the Schedule to the Export and Import of Rough Diamonds Act, to amend the list of countries in sections 2 and 3 of the Schedule to the Act. The following countries would be listed: Angola, Armenia, Australia, Belarus, Botswana, Brazil, Bulgaria, Canada, Central African Republic, China, Croatia, Czech Republic, Democratic Republic of Congo, European Community, Guinea, Guyana, Hungary, India, Israel, Ivory Coast, Japan, Laos, Lesotho, Malaysia, Mauritius, Namibia, Poland, Republic of Congo, Romania, Russia, Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu, Sierra Leone, Singapore, Slovenia, South Africa, South Korea, Sri Lanka, Switzerland, Tanzania, Thailand, Togo, Ukraine, United Arab Emirates, United States of America, Venezuela, Vietnam, Zimbabwe. (Published in the Canada Gazette Part I on May 8, 2004)

Export and Import
of Rough Dia-
monds Act

TREASURY BOARD

Secure Electronic Signature Regulations, to establish the definition of secure electronic signature. The proposed regulations would provide that only those digital signature certificates are deemed to be sufficiently trustworthy that are issued by Certification Authorities which: (i) the President of the Treasury Board has verified as having the capacity to issue certificates in a secure and reliable manner, and as fulfilling the four characteristics set out in subsection 48(2); and (ii) the President of the Treasury Board has listed on the Web site of the Treasury Board Secretariat. (Approved May 11, 2004) (SOR/2004-130; to be published in the Canada Gazette, Part II on June 2, 2004)	Aeronautics Act
*630	Regulations Amending the Canadian Aviation Regulations (Part I) , to introduce a provision for notices sent to applicants for a Canadian aviation document and reflect changes to the Transportation Appeal Tribunal of Canada procedures. (Approved May 11, 2004) (SOR/2004-131; to be published in the Canada Gazette, Part II on June 2, 2004)	Aeronautics Act
OTHER		
*632	Order authorizing the minting of a One Dollar Circulation Coin to celebrate the 25th Anniversary of the Terry Fox Marathon of Hope. (Approved May 11, 2004) (SOR/2004-133; to be published in the Canada Gazette, Part II on June 2, 2004)	Royal Canadian Mint Act
651	Fix the remuneration payable to members of the Payments in Lieu of Taxes Dispute Advisory Panel, effective April 22, 2004. (Approved May 11, 2004)	Payments in Lieu of Taxes Act
652	Details not available. (Approved May 11, 2004)	Prerogative
Proposed Regulations		
AGRICULTURE		
	Potato Wart Compensation Regulations, 2003 , to provide a compensation scheme not only for the 2002 discovery of potato wart, but also for detections of potato wart that may occur in the future, whether they be in PEI or elsewhere in Canada (except Newfoundland and Labrador, where quarantine measures are in place). (Published in the Canada Gazette Part I on May 15, 2004)	Plant Protection Act
FOOD AND DRUG		
	Regulations Amending the Food and Drug Regulations (1063 — Carrageenan in Infant Formula) , to add to the current listings for algin and guar gum that these can be used singly or in combination with carrageenan in infant formula based on isolated amino acids or protein hydrolysates, or both, and in lactose-free infant formula based on milk protein at maximum levels of 0.1 percent and 0.05 percent respectively. These proposed amendments would provide consistency between the listings for algin, carrageenan and guar gum. (Published in the Canada Gazette Part I on May 15, 2004)	Food and Drugs Act

NUMBER PC-2004-	ITEM	STATUTORY AUTHORITY
	<p>Regulations Amending the Food and Drug Regulations (1170 — Food Additives), to permit new uses of the following food additives that are already listed in the tables to Division 16 of Part B of the Regulations: disodium ethylene-diamine-tetraacetate (EDTA) to stabilize the viscosity of aqueous suspensions of colour pigments for use in coating confectionery tablets at a maximum level of use of 1 percent of the colour preparation; disodium EDTA and calcium disodium EDTA in pasteurized sous-vide potatoes to stabilize the colour of the potatoes at a maximum level of use of 100 parts per million (p.p.m.), singly or in combination; sodium stearyl-2-lactylate as an emulsifying agent in puddings and pudding mixes, salad dressing, French dressing, and soups at maximum levels of use of 0.2 percent, 0.4 percent and 0.2 percent of the finished product, respectively; sodium erythorbate and sodium tripolyphosphate in canned clams, the first substance to stabilize the colour and the second one to tenderize the products, at maximum levels of use of 350 p.p.m. and 5 000 p.p.m., respectively; sodium tripolyphosphate as a sequestering agent in canned whelks at a maximum level of use of 0.5 percent, calculated as sodium phosphate, dibasic, when used singly or in combination with sodium acid pyrophosphate or sodium hexametaphosphate, or both; to increase the levels of use of potassium sorbate and calcium propionate in soft flour tortillas in order to extend the durable life of these foods without the use of special packaging materials; their respective levels of use would be increased from 1 000 p.p.m. and 2 000 p.p.m. to 5 000 p.p.m. and 4 000 p.p.m.; talc as a dusting agent in the manufacture of chewing gum at a maximum level of use consistent with good manufacturing practice. In addition, the proposed changes would permit the use of sodium tripolyphosphate as a sequestering agent in all canned sea-foods. (Published in the Canada Gazette Part I on May 15, 2004)</p>	Food and Drugs Act
	<p>Regulations Amending the Food and Drug Regulations (1225 — Food Additives), to permit the use of these enzymes produced from new genetically modified source micro-organisms, as follows: alpha-amylase and glucoamylase enzymes, produced by <i>Aspergillus niger</i> STz18-9 (pHUda7) genetically modified to contain multiple copies of the natural alpha-amylase and glucoamylase genes from <i>Aspergillus niger</i>, in the production of distillers' mash, ale, beer, light beer, malt liquor, porter, stout, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; alpha-amylase enzyme, produced by <i>Bacillus amyloliquefaciens</i> EBA 20 (pUBH2) genetically modified to contain multiple copies of the natural alpha-amylase gene from <i>Bacillus amyloliquefaciens</i>, in the production of brewers' mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; alpha-amylase enzyme, which has high temperature and low pH stability, produced by <i>Bacillus licheniformis</i> BML 592 (pAmyAmp) genetically modified to contain the alpha-amylase gene obtained from the wild type <i>Bacillus licheniformis</i> modified by mutagenesis, in the production of brewers' mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; alpha-amylase enzyme, which has high temperature and low pH stability and a reduced calcium requirement, produced by <i>Bacillus licheniformis</i> BML 730 (pAmyAmp) genetically modified to contain the alpha-amylase gene obtained from the wild type <i>Bacillus licheniformis</i> modified by mutagenesis, in the production of brewers' mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; alpha-amylase enzyme, produced by <i>Bacillus licheniformis</i> LAT8 (pLAT3) genetically modified to contain multiple copies of the natural alpha-amylase gene from <i>Bacillus licheniformis</i>, in the production of brewers' mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; alpha-amylase enzyme, produced by <i>Bacillus licheniformis</i> LiH 1159 (pLiH1108) genetically modified to contain a hybrid <i>Bacillus amyloliquefaciens</i> and <i>Bacillus licheniformis</i> alpha-amylase gene, in the production of brewer's mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose</p>	Food and Drugs Act

syrup) and maltose; alpha-amylase enzyme, produced by *Bacillus licheniformis* LiH 1464 (pLiH1346) genetically modified to contain the alpha-amylase gene from *Bacillus stearothermophilus*, in the production of brewers' mash, distillers' mash, and in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup) and maltose; amylase (maltogenic) enzyme, produced by *Bacillus subtilis* LFA 63 (pLFA63) genetically modified to contain a maltogenic amylase gene from *Bacillus stearothermophilus*, in starch used in the production of dextrins, dextrose, glucose (glucose syrup) or glucose solids (dried glucose syrup), maltose, and in bakery products; glucose isomerase (wild type) enzyme, produced by *Streptomyces rubiginosus* SYC 5406 (pSYC5239) genetically modified to contain multiple copies of the natural glucose isomerase gene from *Streptomyces rubiginosus*, in the production of high fructose corn syrups; pectinase enzyme, produced by *Aspergillus oryzae* Km-1-1 (pA2PEI) genetically modified to contain the pectinase gene from *Aspergillus aculeatus*, in the production of cider, wine, single-strength fruit juices, and unstandardized fruit and vegetable products; pullulanase enzyme, produced by *Bacillus licheniformis* BMP 139 (pR11Amp) genetically modified to contain the pullulanase gene from *Bacillus deramificans*, in the production of brewers' mash, bread, flour, whole wheat flour, unstandardized bakery products, and starch used in the production of dextrins, dextrose, glucose (glucose syrup), glucose solids (dried glucose syrup) or fructose syrups and solids, and maltose; and pullulanase enzyme, produced by *Bacillus subtilis* B1-163 (pEB301) genetically modified to contain the pullulanase gene from *Bacillus naganoensis*, in the production of brewers' mash, distillers' mash, bread, flour, whole wheat flour, unstandardized bakery products, and starch used in the production of dextrins, dextrose, glucose (glucose syrup), glucose solids (dried glucose syrup) or fructose syrups and solids, and maltose. (Published in the Canada Gazette Part I on May 15, 2004)

Ministerial Orders

AGRICULTURE

- | | | |
|--------------|--|-----------------------|
| SOR/2004-136 | Honeybee Importation Prohibition Regulations, 2004 (Approved May 19, 2004) (To be published in the Canada Gazette, Part II on June 2, 2004) | Health of Animals Act |
|--------------|--|-----------------------|

Proposed Regulations

FOOD AND DRUG

<p>Regulations Amending the Food and Drug Regulations (1272 - Levonorgestrel), to remove from Schedule F, levonorgestrel, when sold in a concentration of 0.75 mg per oral dosage unit. This is the dosage strength of levonorgestrel recommended for use as an emergency contraceptive (EC). (Published in the Canada Gazette Part I on May 22, 2004)</p>	Food and Drugs Act
---	--------------------

<p>Regulations Amending the Food and Drug Regulations (1356 - Disinfectants), to exempt antimicrobial agents from requirements respecting Good Manufacturing Practices (GMP) and establishment licencing while still regulating them as drugs under the Food and Drugs Act (FDA) and Regulations. This means that products meeting the definition of an "antimicrobial agent" will no longer have to comply with the requirements of establishment licencing (Part C, Division 1A) or Good Manufacturing Practices (Part C, Division 2) of the Regulations. (Published in the Canada Gazette Part I on May 22, 2004)</p>	Food and Drugs Act

Ministerial Orders

ENVIRONMENT

SI/2004-64	Order 2004-66-03-02 amending the Non-domestic Substances List (Approved June 15, 2004) (Published only in the Canada Gazette, Part I)	Canadian Environmental Protection Act, 1999
SI/2004-65	Order 2004-87-03-02 amending the Non-domestic Substances List (Approved June 15, 2004) (Published only in the Canada Gazette, Part I)	Canadian Environmental Protection Act, 1999

Proposed Regulations

CORPORATE AFFAIRS

Regulations Amending the Letter Mail Regulations, to increase, effective January 17, 2005, the rates of postage for domestic letter items other than the basic domestic letter rate (lettermail items up to 30 g). Rate increases include the following, among others: a \$0.02 increase to \$1.00 (2 percent) on the basic domestic oversized letter rate (100 g or less); and adjustments to other prices, with an average overall increase of 4.2 percent. (Published in the Canada Gazette Part I on June 26, 2004)

Canada Post Corporation Act

Regulations Amending the International Letter-post Items Regulations, to increase, effective January 17, 2005, the price of postage for letter-post items destined to the United States and to other international destinations. Proposed price adjustments include the following, among others: a \$0.05 increase to \$0.85 (6.3 percent) for letters, cards and postcards up to 30 g destined to the United States. Other prices for this destination will also be adjusted, with an average overall increase of 4.2 percent; and a \$0.05 increase to \$1.45 (3.6 percent) for letters, cards and postcards up to 30 g for other foreign destinations. Other prices for these destinations will also be adjusted, with an average overall increase of 3.2 percent. The proposed amendments require consequential, minor amendments to the Special Services and Fees Regulations and to the Materials for the Use of the Blind Regulations. (Published in the Canada Gazette Part I on June 26, 2004)

Canada Post Corporation Act

Regulations amending certain Regulations Made under the Canada Post Corporation Act (Miscellaneous Program), to make a number of changes of a technical nature, to come into force on the day on which they are registered. The proposed changes would correct minor errors in format, syntax, spelling or punctuation; update or clarify minor, non-substantive unclear passages; and revoke obsolete provisions that have no further application or effect. More specifically, the changes would:

Canada Post Corporation Act

— modify the Materials for the Use of the Blind Regulations, to clarify that the use of Xpresspost is free of charge if mailed to an address in Canada. The Material for the Use of the Blind Regulations do not apply to Xpresspost if destined for delivery outside of Canada. For international outbound materials, another product is listed in the Regulations.

— modify the International Letter-post Items Regulations, to remove the reference to a green CN22 label as being displayed in Schedule I of the Regulations. By removing an example of the customs label from the Regulations and only referring to it by form name will eliminate the risk of inconsistencies, since the form layout is changed regularly. This will also allow for format changes to be made on a timely basis.

— modify the Canadian Armed Forces Regulations, to remove the reference to a green label (same label as noted above) as being displayed in Schedule I of the International Letter-post Items Regulations. (Published in the Canada Gazette Part I on June 26, 2004)

NUMBER PC-2004-	ITEM	STATUTORY AUTHORITY
	<p>Regulations Amending the Special Services and Fees Regulations, to increase, effective January 17, 2005, the rate charges for two special services: a \$0.25 increase to \$6.25 (4.2 percent) for Domestic Registration on Lettermail; and a \$0.25 increase to \$7.25 (3.6 percent) for Acknowledgement of Receipt on domestic Regulated Registered items. (Published in the Canada Gazette Part I on June 26, 2004)</p>	Canada Post Corporation Act
	TRANSPORTATION	
	<p>Air Canada Pension Plan Solvency Deficiency Funding Regulations, to permit, provided that certain conditions are met, Air Canada to amortize solvency deficiencies in the company's pension plans over a period of 10 years. The conditions include: (1) appropriate disclosure of information to plan beneficiaries regarding the proposed funding relief; (2) a statement being filed with the Superintendent of Financial Institutions that plan beneficiaries, through their representatives, consent to the funding of their pension plans in accordance with the Regulations; and (3) the remittance by Air Canada to the pension plans of certain outstanding payments, including all current service contributions that are required to be made prior to emergence from CCAA. As well, upon exit from CCAA, Air Canada will issue secured promissory notes in favour of each of the pension plans totaling \$346.6 million. The notes are intended to provide a degree of protection to the plans in that the notes could be called on should the company be liquidated at some time in the future. These notes cover payment obligations resulting from directions issued by OSFI to Air Canada in early 2003. The Regulations stipulate that the deemed trust provisions of the Act will not apply to these obligations, which will be secured instead by these promissory notes. This substitution is being made so that Air Canada can obtain financing necessary to emerge from CCAA. The funding flexibility given in the Regulations provides for variable payments over the next 10 years, as set out in a schedule to the Regulations. Subject to possible final revisions to the estimated aggregate solvency deficiency of the plans as at January 1, 2004, Air Canada's annual pension funding payments will be approximately \$65 million in 2004, \$85 million in 2005, and \$200 million in 2006. Annual special payments in the remainder of the ten-year period are approximately \$184 million. In comparison, if current funding rules were applied, Air Canada would be required to fund the solvency deficiencies by equal annual payments over five years. As long as the funding of Air governed by the Regulations, the plans will be subject to special terms and conditions set out in the Regulations. For example, certain actuarial methods must be used by the plans during the period, and any amendments that would increase benefits will require the authorization of the Superintendent. The proposed funding relief ends in 2013, after which time Air Canada would be subject to the same rules as other companies. Air Canada may opt out of the funding relief at an earlier date, subject to certain conditions. If Air Canada were to opt out of the Regulations, it would be required to fund its plan deficiencies over the shorter of five years or the number of years remaining in the ten-year funding schedule at the time of opting out. The Regulations are being proposed on the basis that they will be brought into force, and available to Air Canada, only if there is appropriate disclosure of information to the beneficiaries of Air Canada's defined benefit pension plans and evidence that plan beneficiaries consent to Air Canada funding its defined benefit pension plans in accordance with the Regulations. While the regulatory change would only deal with the situation at Air Canada, the Minister of Finance has asked the Department of Finance and The Office of the Superintendent of Financial Institutions (OSFI) to bring forward proposals to apply this type of funding flexibility more broadly to other companies under the protection of the CCAA or the Bankruptcy and Insolvency Act (BIA). (Published in the Canada Gazette Part I on June 19, 2004)</p>	Pension Benefits Standards Act, 1985

*1345	Regulations Amending the Port Authorities Operations Regulations (Miscellaneous Program) , to make a number of amendments to the Regulations in order to address concerns raised by the Standing Joint Committee for the Scrutiny of Regulations. (Approved November 16, 2004) (SOR/2004-255; to be published in the Canada Gazette, Part II on December 1, 2004)	Canada Marine Act
TREASURY BOARD		
1351	Approve the Corporate Plan of the Canadian Air Transport Security Authority for the planning period commencing on April 1, 2004 and ending on March 31, 2006. (Approved November 16, 2004)	Financial Administration Act
OTHER		
1318	Fix the remuneration payable to certain persons appointed by the Governor in Council. (Approved November 5, 2004)	Prerogative
1342	Grant an annuity to Mary Cornish, widow of the Hon. F. Joseph Cornish, a retired Junior Judge of the County Court for the Judicial District of York, in Ontario, effective September 29, 2004. (Approved November 16, 2004)	Judges Act

Ministerial Orders

AGRICULTURE

SOR/2004-
256

Order Amending the Ontario Hog Charges (Interprovincial and Export) Order (Approved November 18, 2004) (To be published in the Canada Gazette Part II on December 1, 2004)

Ontario Pork Producers' Marketing Order

Proposed Regulations

AGRICULTURE

Regulations Amending the Health of Animals Regulations, to improve the cattle identification program to allow the Canadian Food Inspection Agency (CFIA) to better protect against and respond to outbreaks of animal diseases among livestock, such as Bovine Spongiform Encephalopathy (BSE). More specifically, it is proposed to remove a number of the exemptions that currently exist in the Canadian Cattle Identification Program. It will no longer be permitted to move unidentified animals to community pastures, fairs or vet clinics. As well, auction barns would no longer be exempt from the requirement to replace lost tags. As well, a number of new requirements are proposed to further enhance the program. Tags must be applied so that the national logo and number face forward. The requirement to identify is extended to include deadstock. Approved tagging sites will be required to ensure that all unidentified animals are tagged upon reception, and producers will be required to have made prior arrangements with the tagging site for the identification of their animals if the tags do not accompany the animals. A number of changes are aimed at improving the information in the database available to CFIA personnel to ensure that traceback activities can be carried out in a timely and efficient manner. Proposed is a new requirement on tag distributors to report information on producer tag sales to the database within 24 hours. Where a person wishes to apply a new approved tag to an animal that is already identified, there will be a requirement to report the correlated numbers to the database. As well, it will no longer be permitted to replace an approved tag with another tag for animals destined for the export market. (Published in the Canada Gazette Part I on November 20, 2004)

Health of Animals Act

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1330 [Sibutramine]), to update Schedule F to the Food and Drug Regulations of the Food and Drugs Act by adding the medicinal ingredient sibutramine and its salts to Part I of Schedule F. (Published in the Canada Gazette Part I on November 20, 2004)

Food and Drugs Act

Regulations Amending the Food and Drug Regulations (1425 [Clopyralid]), to establish Maximum Residue Limits (MRLs) for clopyralid of 0.36 parts per million (p.p.m.) in kidney of cattle, goats, horses and sheep, 0.2 p.p.m. in kidney of poultry, 0.05 p.p.m. in eggs, in fat, meat and meat by-products of cattle, goats, hogs, horses, poultry and sheep, and in kidney of hogs, and 0.01 p.p.m. in milk. This proposed regulatory amendment would also amend the chemical name of clopyralid in order to comply with international nomenclature conventions. (Published in the Canada Gazette Part I on November 20, 2004)

Food and Drugs Act

TRANSPORTATION

Regulations Amending the Canadian Aviation Regulations (Parts I and V), to introduce new Subpart 61 Manufacture of Aeronautical Products into Part V Airworthiness of the Canadian Aviation Regulations (CARs). A corresponding Standard 561 Standard for Approved Manufacturers accompanies the introduction of the new Subpart. Section 571.07 Installation of New Part will also be amended to refer to Subpart 61. As well, changes are proposed to the definitions of "maintenance" and "manufacturer certificate" in Part I General Provisions of the CARs. (Published in the Canada Gazette Part I on November 20, 2004)

Aeronautics Act

Regulations Amending the Canadian Aviation Regulations (Parts I, VI, VII and VIII), to establish a range of visibilities, with associated operating conditions for each visibility criterion within the range, which will restrict the continuation of an approach, under instrument meteorological conditions (IMC), by the flight crew of aeroplanes operating in a commercial air service to an aerodrome or an airport. These proposed amendments will constitute an approach ban prohibiting crew of aeroplanes operating in a commercial air service from continuing an approach if the visibility is reported as below the limiting value during the approach. (Published in the Canada Gazette Part I on November 20, 2004)

Aeronautics Act

Regulations Amending the Boating Restriction Regulations, to add new restrictions and to repeal some previous restrictions, as well as to deal with a concern raised by the Standing Joint Committee for the Scrutiny of Regulations (SJC) with respect to grammar. In this amendment, area-specific restrictions were requested only for Quebec, Ontario, and Alberta. In Quebec, there was a request to prohibit power-driven vessels from six lakes (i.e., Lambert Lake, Perchaude Lake, Simon Lake, Des Pins Lake, Beaulne Lake and Violon Lake) where they represent a safety concern. Ontario has requested an amendment to an existing speed limit from 6 km/hr to 10 km/hr (i.e. Port Credit Harbour), a new 10 km/hr speed restriction on a portion of the Trent-Severn Waterway, and has also requested a minor amendment to the existing Regulations to change an item number in order to maintain sequential order of their regulated areas. Alberta has requested that a present restriction prohibiting all vessels be amended to allow non-power driven vessel use (i.e. Eagle Lake), and there is also a request to prohibit power-driven vessels from a lake (i.e. Beaver Lake) where they represent a safety concern. Saskatchewan has requested the repeal of a restriction on waters on which power-driven vessels or vessels driven by electrical propulsion are prohibited except with the authorization of the Minister. Repealing the restriction clarifies the local enforcement policy as there is a less restrictive prohibition in place. In subsections 2.2(1), 2.3(1), 2.4(1) and 2.4(3) in the English version of the Regulations, the word "or" was inserted following "hirer" to correct an error in grammar. (Published in the Canada Gazette Part I on November 20, 2004)

Canada Shipping Act

Regulations Amending the Motor Vehicle Safety Regulations (Expiration Date for Certain Technical Standards Documents), to make changes to sections 105 "Hydraulic and Electric Brake Systems (Standard 105)", 108 "Lighting System and Retroreflective Devices" (Standard 108), 121 "Air Brake Systems (Standard 121)", 122 "Motorcycle Brake Systems (Standard 122)", 131 "School Bus Pedestrian Safety Devices", 135 "Light Vehicle Brake Systems (Standard 135)", 206 "Door Locks and Door Retention Components (Standard 206)", 305 "Electrolyte Spillage and Electrical Shock Protection (Standard 305)" and 500 "Low-speed Vehicles (Standard 500)". These changes are being made to extend the expiration date of the above sections, which incorporate Technical Standard Documents (TSDs). (Published in the Canada Gazette Part I on November 20, 2004)

Motor Vehicle Safety Act

NUMBER PC-2004-	ITEM	STATUTORY AUTHORITY
	<p>Regulations Amending the Motor Vehicle Safety Regulations (Standards 210.1 and 210.2), to introduce requirements, in Canada Motor Vehicle Safety Standard (CMVSS) 210.1, User-ready Tether Anchorages for Restraint Systems and in CMVSS 210.2, Lower Universal Anchorage System for Restraint Systems and Booster Cushions, for every bench seat on school buses to be equipped with either one or two sets, depending on the size of the bench seat, of user-ready tether and lower universal anchorages for the safe installation of child restraints; and to add requirements, in CMVSS 210.1, for the installation of two sets of user-ready tether anchorages in buses, other than school buses, with a gross vehicle weight rating (GVWR) of 4 536 kg or less and specify, in CMVSS 210.2, the number of lower universal anchorages to be installed in those vehicles. (Published in the Canada Gazette Part I on November 20, 2004)</p>	Motor Vehicle Safety Act
	<p>Regulations Amending the Notice of Railway Works Regulations, to clarify that a utility crossing is prescribed as a railway work of a kind for which notice shall be given by adding paragraph 3(f) resulting in a specific reference to utility crossings in the list of prescribed works. In section 5 of the proposed amendments to the Regulations, the term "road crossing" is replaced, where necessary, by the term "crossing work" which, pursuant to its definition in the Railway Safety Act (RSA), encompasses both road crossings and utility crossings, in order to identify the persons to whom notice is to be given for utility crossings. (Published in the Canada Gazette Part I on November 20, 2004)</p>	Railway Safety Act
	<p>Regulations Amending the Transportation of Dangerous Goods Regulations, to amend references in the Regulations to the International Maritime Dangerous Goods Code (IMDG Code), published by the International Maritime Organization, the Supplement to the Technical Instructions for the Safe Transport of Dangerous Goods by Air, published by the International Civil Aviation Organization (Supplement to the ICAO Technical Instructions) and the National Standards of Canada that have been revised, for example, to address valve protection on cylinders, spheres and tubes used to transport gases. The following safety standards and safety requirements would be updated: CSA B339, CSA B340, IMDG Code, and Supplement to the ICAO Technical Instructions. (Published in the Canada Gazette Part I on November 20, 2004)</p>	Transportation of Dangerous Goods Act, 1992
	<p>Traffic on the Land Side of Airports Regulations, to serve as stand-alone regulations respecting the movement of vehicles, pedestrians and wheelchairs and other similar devices, the parking of vehicles, littering and the control of animals on the land side of airports owned by the federal government. The land side (also referred to as the ground side) is that area of an airport not intended to be used for activities related to aircraft operations (e.g. roads, parking areas, sidewalks). The proposed Regulations would be applicable to the 24 leased airports and to 19 airports which are still owned by the federal government and operated by, or on behalf of, the Minister. The airports in these two categories are listed in schedules to the Regulations. (Published in the Canada Gazette Part I on November 20, 2004)</p>	Government Prop- erty Traffic Act & Aeronautics Act

1446	Provincial Emergencies Financial Assistance Order, No. 72, to authorize the provision of financial assistance in regard to the damages caused by Hurricane Bonnie in New Brunswick on August 13 and 14, 2004. (Approved November 29, 2004)	Emergency Pre- paredness Act
Ministerial Orders		
ENVIRONMENT		
SOR/2004-285	Order 2004-87-09-01 Amending the Domestic Substances List (Approved November 30, 2004) (To be published in the Canada Gazette, Part II on December 15, 2004)	Canadian Environ- mental Protection Act, 1999
Proposed Regulations		
ENVIRONMENT		
	Regulations Amending Certain Regulations Made Under the Canadian Environmental Assessment Act , to amend the following regulatory provisions: (i) Item 10 of Part II of Schedule I of the Law List Regulations; and (ii) Item 78 of the Schedule to the Inclusion List Regulations. These proposed amendments result from an amendment to the Health of Animals Regulations and the proposed addition of European honeybees to the list of species exempted from requiring an environmental assessment (EA) prior to their importation. In order to continue the EA of imported animals under the authority of the CEAA, the Law List Regulations and the Inclusion List Regulations must be amended to reference the revised import sections in the Health of Animals Regulations. The proposed regulation also amends Item 78 of the Inclusion List Regulations by adding "European honeybees" to the list of animal species that are exempted from requiring an EA prior to importation. (Published in the Canada Gazette Part I on December 4, 2004)	Canadian Environ- mental Assessment Act

TAX CHANGES

Regulations Amending the Income Tax Regulations, to make the following changes: technical amendments to correct errors in the Regulations, and to update the Regulations to reflect Government announcements and previous amendments to the Income Tax Act; an amendment to require issuers of registered retirement savings plans (RRSPs) to file information returns setting out certain details concerning the premiums they receive; an amendment extending the time for filing an information return regarding past service pension adjustments; and amendments to the list of foreign universities to which a Canadian can donate and receive tax relief in respect of that donation. (Published in the Canada Gazette Part I on December 4, 2004)

AGRICULTURE

SOR/2004-303	Order amending the Ontario Hog Charges (Interprovincial and Export) Order (Approved December 9, 2004) (To be published in the Canada Gazette, Part II on December 29, 2004)	Ontario Pork Producers' Marketing Order
--------------	--	---

JUSTICE

SOR/2004-304	Saskatchewan Sex Offender Information Registration Regulations (Approved December 13, 2004) (To be published in the Canada Gazette, Part II on December 29, 2004)	Sex Offender Information Registration Act
SOR/2004-305	Nova Scotia Sex Offender Information Registration Regulations (Approved December 13, 2004) (To be published in the Canada Gazette, Part II on December 29, 2004)	Sex Offender Information Registration Act

Proposed Regulations

AGRICULTURE

Canadian Beef Cattle Research, Market Development and Promotion Agency Proclamation , to provide that the specified provincial cattle associations nominate persons to be members of the Agency to represent primary producers, to allow the Agency to appoint those associations to collect levies on behalf of the Agency, and to correct the identifications of the organizations for British Columbia, Alberta, Saskatchewan and Nova Scotia. (Published in the Canada Gazette Part I on December 11, 2004)	Farm Products Agencies Act
--	----------------------------

Regulations Amending Certain Regulations Administered and Enforced by the Canadian Food Inspection Agency, to require the removal of specified risk material (SRM) from the animal feed chain, as a way of enhancing the risk management of Bovine spongiform encephalopathy (BSE), commonly referred to as mad cow disease. In cattle, SRM includes skull, vertebral column and dorsal root ganglia, brain, spinal cord, eye, tonsils, lymph nodes, spleen and intestines. These tissues are reported to account for up to 99 percent of the BSE infectivity. More specifically, the proposed amendments would add several new requirements: prohibiting the use of proteins derived from cattle SRM, condemned and dead stock cattle and other ruminants in animal food, including pet food, and in fertilizers; the identification of SRM and dead stock through the addition of markers, stains, tracers or other means and the tracking of movements of SRM and dead stock via record-keeping requirements from removal to final disposal or alternative use outside the food, feed and fertilizer production and distribution system to increase the certainty that these materials do not re-enter the human and animal food chains or the fertilizer system; and specifying the manner and conditions of destruction and disposal or alternative use for cattle SRM and dead stock removed from abattoirs or the farm to effectively reduce or contain any potential BSE infectivity in these materials and prevent other cattle in Canada's herd from being exposed to the BSE agent. (Published in the Canada Gazette Part I on December 11, 2004)

Feeds Act, Fertilizers Act, Health of Animals Act & Meat Inspection Act

CORPORATE AFFAIRS

Regulations Amending the Patented Medicines (Notice of Compliance) Regulations, to reaffirm the rules for listing patents on the register and clarify when listed patents must be addressed. Under the proposed amendments, a patent list must be directly relevant to the content of the submission for an Notice of Compliance (NOC) in relation to which it is submitted and only certain clearly defined submission types provide an occasion to submit a new patent list. The amendments stipulate that only patents with application filing dates which precede the date of the New Drug Submission (NDS) and are directly relevant to its content can be listed on the register in relation to the original form of the drug. This will facilitate the market entry of generic versions of the original innovator product as soon as possible after expiry of the original patents. In this context, the amendments do not otherwise change the content requirements for eligibility, as patents submitted in relation to a NDS must continue to contain either a "claim for the medicine itself" or the "use of the medicine." Greater specificity has been brought to the meaning of the former term to reflect well-settled law that a "claim to the medicine itself" under the Regulations can be interpreted as constituting either a claim for the medicinal ingredient alone or a claim to a formulation consisting of that medicinal ingredient in combination with non-medicinal ingredients. The amendments formally confirm the right to list new patents on the basis of Supplement to a New Drug Submission (SNDS) filings and introduce listing requirements governing that right. Under these requirements, patents which precede the date of an SNDS filed for a change in formulation or indication will be eligible for listing on the register, provided they claim the change in question. Consistent with existing practice, the amendments also contain a provision expressly allowing innovators to carry forward patent lists submitted in relation to a NDS by resubmitting them in relation to a supplement to that NDS. Also with a view to dispelling any confusion surrounding patent listing issues, the amendments eliminate the unnecessary and somewhat ambiguous distinction in the current section 4 between an "existing" patent list and an "amendment" to such a list. Under the amended PM(NOC) Regulations, each time an innovator submits new patents to the Minister these shall be considered as comprising a unique and stand-alone patent list. The proposed amendments confirm the right of generic companies to justify an allegation on the basis that an innovator has falsely certified a patent's eligibility for inclusion on the register. To ensure that new patents submitted in relation to an SNDS for a change in formulation or indication do not impede the market entry of generic drugs which do not rely on the change in question, a related amendment is proposed which would

Patent Act

dispense with the requirement that a generic company amend its submission to address a newly listed patent if the patent was submitted on the basis of an SNDS which postdates the filing of the generic drug submission. Similarly, on the matter of use patents added by way of an SNDS for a change in indication, a further amendment is proposed which confirms that a generic company not seeking approval for that new indication may justify an allegation on that ground. To ensure that the intent of the above-described changes is not thwarted, the amendments also include an anti-avoidance provision. This provision is targeted at innovators who would seek to forestall generic market entry by withdrawing the original form of the product from the market in order to deprive generic competitors of an immediate Canadian Reference Product. In such an event, the amendment would result in the loss of protection under the Regulations of any patents on the register relating to the product in question. Finally, as a separate and unrelated measure, the amendments also propose to repeal subsection 5(1.1) of the PM(NOC) Regulations. This provision was introduced in 1999, when it became apparent that a generic company could avoid compliance with the Regulations by making an indirect comparison to an innovator's drug with patents on the register. In the Government's view, subsection 5(1.1) was rendered redundant soon after its passage when the Federal Court of Appeal ruled that the preexisting triggering provision, subsection 5(1), was sufficiently broad to capture avoidance strategies founded on indirect reliance. (Published in the Canada Gazette Part I on December 11, 2004)

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1390 □ Data Protection), to codify more clearly Canada's data protection commitments under the North American Free Trade Agreement and the Trade Related Aspects of Intellectual Property Agreement of the World Trade Organization. These commitments require that signatories provide protection against the unfair commercial use of undisclosed test or other data submitted for obtaining approval of pharmaceutical or agricultural chemical products, where such products utilize new chemical entities, for a minimum of five years. This data cannot be relied on to approve an equivalent second-entry (generic) drug product for marketing in the country in which the originator obtained that approval, without the originator's permission. The intent of this protection is to allow the originator of the data to protect the investments made in the development of the product by allowing a period of market exclusivity in the country in which it obtained approval. (Published in the Canada Gazette Part I on December 11, 2004)

Food and Drugs
Act

TRANSPORTATION

Regulations Amending the Canadian Aviation Regulations (Part I), to revise existing monetary penalties which may be assessed for contravention of designated provisions of the Canadian Aviation Regulations (CARs) and will introduce new monetary penalties for non-compliance with offence-creating provisions which have been added to the CARs in previous amendments. These proposed amendments will revise the schedule to Subpart 3 (Administration and Compliance) of Part I (General Provisions), i.e. Subpart 103, which comprises a list of those provisions the contravention of which may be dealt with by the imposition of a monetary penalty and which sets forth the maximum monetary penalty which may be assessed for a contravention of each provision. (Published in the Canada Gazette Part I on December 11, 2004)

Proposed Regulations		
AGRICULTURE		
	Regulations Amending the Health of Animals Regulations , to add a clear prohibition against the transportation of non-ambulatory animals. This prohibition would apply to livestock as well as animals of the cervid, camelid and ratite species. It is proposed, however, to allow non-ambulatory animals to be transported for the purpose of veterinary treatment or testing. (Published in the Canada Gazette Part I on December 18, 2004)	Health of Animals Act
CORPORATE AFFAIRS		
	Regulations Amending the Lobbyists Registration Regulations , to make changes to the Regulations following amendments to the Lobbyist Registration Act. One change would require all lobbyists who are former public office holders to provide information in relation to the positions they held within the federal government. The amended Regulations also set out the format of the returns that lobbyists must use to disclose required information. (Published in the Canada Gazette Part I on December 18, 2004)	Lobbyists Registration Act

ENVIRONMENT

Regulations Amending the Migratory Birds Regulations, to help to protect and restore the biological diversity of arctic wetland ecosystems and the ecosystems of important migration and wintering areas, by reducing the population size of overabundant snow goose populations. To curtail the rapid population growth and reduce population size to a level consistent with the carrying capacity of breeding habitats over a period of about five years, the mortality rate must be increased by two to three times the level of the past decade. The amendments propose minor adjustments to the 2005 special conservation measure dates in Quebec, so that the first day falls on a Saturday, and propose to remove, for District G (Lac- Saint-Pierre area), the restriction limiting the areas where hunting is permitted in order to increase hunting opportunities. Amendments are also proposed for Manitoba and Saskatchewan in order to allow the use of decoys representing white or blue phase snow geese when using recorded snow goose calls during the period when only snow geese can be hunted. The special conservation measure dates for Manitoba, Saskatchewan and Nunavut remain the same. (Published in the Canada Gazette Part I on December 18, 2004)

Migratory Birds
Convention Act,
1994

FINANCE

By-law Amending the Canada Deposit Insurance Corporation Differential Premiums By-law, to make significant amendments to sections 1 and 27 and to items 1, 3, 4, 5, 7, 8 and 9 of Schedule 2, Part 2 Reporting Form. Sections 15, 24 and 29, section 1 of Schedule 2, Part 1 Interpretation, item 10 of Schedule 2, Part 2 Reporting Form, Schedule 3 and Schedule 5 of the By-law require amendment due to the changes to sections 1 and 27 and to items 1, 3, 4, 5, 7, 8 and 9 of Schedule 2, Part 2 Reporting Form. Sections 2, 17 and 18 are being amended to correct technical anomalies. (Published in the Canada Gazette Part I on December 18, 2004)

Canada Deposit
Insurance Corpora-
tion Act

Regulations Amending the Canada Student Financial Assistance Regulations, to repeal section 38.3 and to amend appropriately sections that make reference to section 38.3. The allocation of funds to participating jurisdictions would be set out in the Canada Student Loans Program's administrative policy. The proposed changes to the Regulations will ensure that provinces do not experience a lack of funding for Canada Study Grants (CSG) disbursements. An administrative policy for determining grant allocations will base allocations on the value of disbursements made in each jurisdiction in previous loan years. This will mean that jurisdictions receive allocations that more accurately reflect the funds needed to disburse CSGs. The policy will also set the parameters for allocating additional funds to a jurisdiction if additional funding is required within any given loan year. (Published in the Canada Gazette Part I on December 18, 2004)

Canada Student
Financial Assis-
tance Act

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1419 — Glufosinate-ammonium), to establish maximum residue limits (MRLs) for glufosinate-ammonium, including its metabolite, of 3.5 parts per million (p.p.m.) in cottonseed oil, 2 p.p.m. in soybeans, 1 p.p.m. in rice, 0.1 p.p.m. in eggs and fat, meat and meat by-products of cattle, goats, hogs, poultry and sheep, and 0.04 p.p.m. in milk. (Published in the Canada Gazette Part I on December 18, 2004)

Food and Drugs
Act

INTERNATIONAL TRADE

Regulations Amending the Accounting for Imported Goods and Payment of Duties Regulations, to allow the Solicitor General of Canada to determine the maximum amount of duties and taxes payable on commercial goods that can be secured by a credit card. (Published in the Canada Gazette Part I on December 18, 2004)

Customs Act

JUSTICE

Regulations Amending the Application of Provincial Laws Regulations, to provide that the laws made applicable to the prosecution of contraventions in Nova Scotia shall be read, with any modifications that the circumstances require, as if section 530 and paragraphs 530.1(a) to (h) of the Criminal Code were contained in those laws. It purports to ensure that during a trial for a contravention prosecuted under the offence scheme of Nova Scotia, a defendant will have the same language rights as if he or she had been prosecuted pursuant to the summary conviction process of the Criminal Code. It complies with the spirit of the Federal Court decision in *Canada (Commissioner of Official Languages) v. Canada (Department of Justice)*. (Published in the Canada Gazette Part I on December 18, 2004)

Contraventions Act

TAX CHANGES

Regulations Amending the Income Tax Regulations (Capital Cost Allowance — Energy Conservation Equipment and Alternative Energy Sources), to implement measures proposed in the 2001 and 2003 Budgets to broaden the application of Class 43.1 in Schedule II to the Income Tax Regulations (the “Regulations”). Class 43.1 provides taxpayers with an accelerated capital cost allowance to encourage more efficient use of fossil fuels and the use of renewable or alternative energy sources. By virtue of Class 43.1, qualifying assets of a taxpayer are eligible for a capital cost allowance rate of 30 percent, computed on a declining balance basis. Included in the class are wind energy equipment, small hydro equipment, geothermal electricity equipment, certain types of efficient cogeneration equipment, photovoltaic equipment and other types of renewable or alternative energy production equipment. These amendments: add “basic oxygen furnace gas” and “blast furnace gas” to the definition of “fossil fuel” in subsection 1104(13) of the Regulations. Only certain types of fuel (including fossil fuel) may be used by certain properties described in Class 43.1. These changes apply to property acquired after 2000 that uses such fuel. The amendments would also increase the upper limit on the size of a small hydroelectric project that qualifies for Class 43.1 treatment to a maximum rated capacity of 50 megawatts (MW), from the current limit of an annual average generating capacity of 15 MW. This change applies to property acquired after December 10, 2001. The amendment would add “bio-oil” to the list of fuels one or more of which must be the only type of fuel used by certain property described in Class 43.1 and, subject to certain conditions, provide that equipment used to generate electricity using bio-oil is also eligible for Class 43.1 treatment. This change applies to any property acquired after February 18, 2003, that uses such fuel. The amendments would extend Class 43.1 treatment to certain fixed-location fuel cells that use hydrogen generated from either fuel reformation equipment or ancillary electrolysis equipment, if acquired after February 18, 2003. The amendment would extend Class 43.1 treatment to certain active solar heating equipment that is used for the purpose of heating a liquid or gas used directly in a greenhouse, as well as to certain equipment that generates heat energy from the consumption of certain waste fuels, if the heat energy is used directly in a greenhouse. These changes apply to equipment acquired after February 18, 2003. (Published in the Canada Gazette Part I on December 18, 2004)

Income Tax Act

VETERANS AFFAIRS

Regulations Amending the Veterans Health Care Regulations, to amend section 16 of the Regulations, to extend to primary caregivers of eligible veterans eligibility for two components of the Veterans Independence Program, namely, housekeeping services and grounds maintenance services. These services would be provided to the primary caregiver after the veteran's admission to a health care facility or after the veteran's death, on the condition that the veteran qualified for and received the service at that time. The goal of this amendment, and of its underlying policy, is to support the independence of those who have ensured the care of Canada's veterans in their final years. In addition to veterans, the proposed amendment also extends services to primary caregivers of the following clients (if they received the services at the time of their death or admission to a health care facility): merchant navy veterans, special duty service Canadian Forces entitled to a pension under the Pension Act for disability related to military service other than in war time or special duty service), and former members of certain civilian groups. Another minor change is proposed to section 34.1, to clarify the provisions which stipulate the time limit for submitting claims for reimbursement. (Published in the Canada Gazette Part I on December 18, 2004)

SI/2004-76	Proclamation Summoning Parliament to Meet October 4, 2004 (Dispatch of Business) (Approved July 16, 2004) (Published in the Canada Gazette, Part II as an Extra on July 16, 2004)	Prerogative
------------	--	-------------

Proposed Regulations

FOOD AND DRUG

<p>Pest Control Product Safety Information Regulations, to specify the content and format of a pesticide material safety data sheet (MSDS), and how the MSDS is to be provided to workplaces. The proposed Regulations would incorporate into the pesticide regulatory system certain elements of Canada's Workplace Hazardous Materials Information System (WHMIS) with regards to product safety information. More specifically, the regulations would specify that an applicant for registration of a pesticide, or amendment or renewal of a registration, would be required to provide an MSDS to the Minister, as well as a detailed reference list of all literature consulted, toxicology studies they carried out and documentation of any hazards identified on the MSDS. If a registration application was approved, or if a registration was confirmed or amended following a re-evaluation or special review, the registrant would be required to provide the MSDS to workplaces where the pesticide is manufactured in accordance with subsection 8(3) of the new Pest Control Products Act (PCPA). The proposed Regulations would specify that, on sale of the registered pesticide, the registrant and other suppliers along the distribution chain would be required to provide a copy of the MSDS with each shipment. The registrant would be required to provide additional copies of the MSDS, on request, to suppliers and persons in workplaces where the registered pesticide is used or manufactured. The MSDS requirements would not apply to domestic class pesticides. (Published in the Canada Gazette Part I on July 17, 2004)</p>	Pest Control Prod- ucts Act
--	--------------------------------

Regulations amending the Food and Drug Regulations (1397 - Schedule F), to add seven medicinal ingredients to Part I of Schedule F: adefovir and its salts and its derivatives, a nucleotide analogue used to treat chronic hepatitis B; almotriptan and its salts - a selective 5-hydroxytryptamine receptor agonist used for the acute treatment of migraine attacks; cetrorelix and its salts, a gonadotropin-releasing hormone (GnRH) antagonist used to help control the release of eggs from the ovaries of women undergoing assisted conception procedures such as in-vitro fertilization; ketanserin and its salts, a serotonin S2 receptor antagonist indicated for the treatment of wounds in horses on or below the tarsal or carpal joints and to prevent the formation of excessive granulation tissue at these wound sites; phenylpropanolamine and its salts and its derivatives for veterinary use, a sympathomimetic amine consisting of the racemic mixture of d- and l-norephedrine, used in female dogs for the long-term treatment of urinary incontinence associated with sphincter mechanism incompetence; tadalafil and its salts, a cGMP-specific phosphodiesterase type 5 (PDE5) inhibitor, indicated for the treatment of male erectile dysfunction (ED) at oral doses of 10 and 20 mg once daily; and tetlubenzuron, an antiparasitic drug indicated for the treatment of parasitic infestations caused by the developing chalimus and pre-adult stages of *Lepeophtheirus salmonis* on Atlantic salmon (*Salmo salar*). (Published in the Canada Gazette Part I on July 17, 2004)

Food and Drugs
Act

TAX CHANGES

Regulations amending the Income Tax Regulations (2003 Drought Regions), to amend section 7305 of the Income Tax Regulations, read together with section 7305.01 of the Income Tax Regulations, describe the prescribed regions that are eligible drought regions in 2003. These additions to the list of prescribed drought regions in section 7305 of the Income Tax Regulations are relieving in nature. (Published in the Canada Gazette Part I on July 17, 2004)

PUBLIC SERVICE		
SOR/2004-170	Regulations amending the Public Service Regulations, 2000 (Approved July 29, 2004) (Published only in the Canada Gazette, Part I)	Public Service Employment Act
Proposed Regulations		
INTERNATIONAL TRADE		
	Reporting of Exported Goods Regulations (2004) , to establish, under the authority of section 95 of the Customs Act, who must report goods that are exported from Canada, as well as the time, place and manner of reporting those goods. In addition, the proposed Regulations specify exceptions to reporting requirements and alternatives to the general manner of reporting. The proposed regulations will repeal and replace the Reporting of Exported Goods Regulations. Under the proposed Regulations, exporters will have to report goods destined for export within prescribed time frames and at particular locations, except in cases where they are specifically exempted from the reporting requirement. The proposed Regulations also address the responsibilities of carriers and customs service providers with respect to the reporting of exported goods and the conveyances by means of which they are exported. Where a carrier has satisfied the Canada Border Services Agency (CBSA) that it is transporting goods that will be properly reported by the exporter of the goods in accordance with the Regulations, the carrier will be permitted to report their goods at a prescribed time following the exportation. In most other cases, carriers will be required to submit carrier export reports to CBSA officials prior to the export of the goods. Customs service providers, such as freight forwarders, will be required to report exported goods when requested to do so by a CBSA official prior to the exportation. (Published in the Canada Gazette Part I on July 31, 2004)	Customs Act

JUSTICE

Rules Amending the Federal Court Rules, 1998, to make consequential amendments to the Federal Court Rules, 1998 as a result of the coming into force, on July 2, 2003, of the Courts Administration Service Act, S.C. 2002, c. 8 ("the Act"). Subject to the approval of the Governor in Council, the Rules Committee of the Federal Court of Appeal and the Federal Court may make, amend or cancel any rule. Amendments have to be made to the Rules in order to reflect the distinct character of the Federal Court of Appeal and the Federal Court, to represent the role of the Chief Justices and judges in court administration and that of the Chief Administrator in the management of the administrative services provided to the Courts, to clarify certain procedural elements in proceedings in the two Courts, and to use the appropriate terminology. Sections 1 and 2 of the proposed Rules change the title and the short title. Section 2 states that the new rules will apply to all proceedings in the Federal Court of Appeal and the Federal Court. Section 3 amends the definitions in the Rules, specifically the definitions of "Administrator," "local office," "principal office," "Court" and "case management judge." These amendments are consequential to the role of the Chief Administrator appointed under section 5 of the Act and are again aimed at reflecting the distinct character of the Federal Court of Appeal and the Federal Court. Section 4 repeals Rules 9 to 11 regarding the appointment and role of the Court Administrator and Judicial Administrators, as those provisions are now included in the Act and the Federal Courts Act. Given the distinct character of the two federal Courts, section 5 states that each Court shall have a seal approved by its Chief Justice and kept in the principal office; however, one or more facsimiles of the seal may be authorized by the Chief Justices. Section 6 amends Rule 15 to stipulate that the Registry shall be open for business from 9 a.m. to 5 p.m. and at such other times as may be ordered by the Federal Court of Appeal or the Federal Court. Further, under amended Rule 16, each Court shall have a locked box to provide the public with an opportunity to make comments regarding the administration or the rules of the Court. Section 11 amends Rule 55 to allow the Court to vary rules and dispense with compliance without having to file a motion under Rule 369. Section 12 amends paragraph 65(b) of the Rules to establish a type size not smaller than 12 points for documents prepared for use in a proceeding in the Federal Court of Appeal or the Federal Court in order to ensure that all documents are legible and in the same format. As a result of the enactment of the Personal Information Protection and Electronic Documents Act, Rule 304(1)(c) is amended by section 16 to stipulate that every application to the Federal Court for review of a matter that is the subject of a complaint shall be served on the Privacy Commissioner within the time period prescribed in Rule 304. Section 17 amends Rule 335 to stipulate that appeals from Federal Court decisions, including interlocutory orders, are filed with the Federal Court of Appeal, as are appeals from Tax Court of Canada decisions under subsections 27(1.1) and (1.2) of the Federal Courts Act. Rule 337 is amended to specify the content of notices of appeal other than notices of appeal from final of the Federal Courts Act, the content of which is now prescribed in the new Rule 337.1. Provision is made also for the addition of Form 337.1 regarding notices of appeal under subsection 27(1.2) of the Federal Courts Act. The forms are also amended to reflect the amendments to the Rules. Tariff A is amended to state that a fee of \$150 shall be payable by the plaintiff which files the first document in each separate claim after the Court has ordered, pursuant to paragraph 106(a), that claims against one or more parties be pursued separately. Tariff B is also amended to state that the unit value shall be adjusted annually by the Chief Justices of the Federal Court of Appeal and the Federal Court, in consultation with one another. Finally, consequential amendments regarding terminology are also needed to replace the use in some rules of such words and phrases such as "Court of Appeal," "Trial Division," "Associate Chief Justice," "Division" and "Federal Court Rules, 1998" with the appropriate corresponding words and phrases "Federal Court of Appeal," "Federal Court," "Chief Justice of the Federal Court," "Court" and "Federal Courts Rules". (Published in the Canada Gazette Part I on July 31, 2004)

Federal Courts Act

TRANSPORTATION

Regulations Amending the Laurentian Pilotage Tariff Regulations, to increase of pilotage charges by four percent, effective January 1, 2005. This general increase takes into account the costs resulting from the contracts negotiated with the pilot corporations, including binding Final Offer Selection in the case of the Mid St. Lawrence Pilot Corporation. A new docking charge of \$213.36 has also been included for the docking of a ship at Saint-Lambert Lock. An amendment is proposed to subsection 8(1) of the French version of the Regulations following comments from the Standing Joint Committee for the Scrutiny of Regulations. (Published in the Canada Gazette Part I on July 31, 2004)

<h2>Proposed Regulations</h2>		
INTERNATIONAL TRADE		
	Regulations Amending the Refund of Duties Regulations , to extend the customs duties refund entitlement to those Canada-Israel Free Trade Agreement (CIFTA) another CIFTA beneficiary which have been transshipped through the United States but which have not undergone further production, other than minor processing, in the United States, or any processing that occurred in the United States did not increase their transaction value by greater than 10 percent, in cases where the CIFTA preferential tariff is not claimed at the time of accounting. In order for the extension of the refund entitlement to apply, these amendments will require an importer to provide evidence in the form of a declaration from the United States exporter to indicate what processes, if any, the goods have undergone in the United States. Details of the information needed for such a declaration are outlined in the Regulations Amending the Proof of Origin of Imported Goods Regulations. (Published in the Canada Gazette Part I on September 4, 2004)	Customs Act
	Regulations Amending the Proof of Origin of Imported Goods Regulations , to provide for a declaration by United States exporters that must accompany a Certificate of Origin for goods originating in Israel or another Canada-Israel Free Trade Agreement (CIFTA) beneficiary and which must state whether the goods have been subject, in the United States, to any minor processing or any processing that did not increase the transaction value of the goods by more than 10 percent prior to their export to Canada. The details of the information to be provided on the form, which have been agreed upon by officials from both Canada and Israel, as contemplated in the Agreement, are prescribed by the Minister in accordance with section 2 of the Customs Act. Coinciding with these changes are amendments to subsections 4(2) and (3) of the Proof of Origin of Imported Goods Regulations to correct a technical anomaly that relates to certain proof-of-origin requirements. (Published in the Canada Gazette Part I on September 4, 2004)	Customs Act
JUSTICE		
	Order Amending the Automatic Firearms Country Control List , to add Finland, Latvia, Poland and Portugal to the List. The additions follow conclusion of Intergovernmental Defence, Research, Development and Production Arrangements with Canada and will allow Canadian firms to compete for defence contracts. (Published in the Canada Gazette Part I on September 4, 2004)	Export and Import Permits Act

PUBLIC SERVICE

Statistics Canada 2006 Census Term Employees Exclusion Approval Order and Regulations on the employment with Statistics Canada for the purpose of the 2006 Census, to ensure that the hiring of approximately 1,000 term persons for the 2006 Census would not impact adversely on Statistics Canada's regular staff's opportunities of advancement and placement. In fact, the proposed Exclusion Approval Order and Regulations are the only mechanisms available for ensuring that such persons would not be eligible to participate in closed competitions. (Published in the Canada Gazette Part I on September 4, 2004)

Ministerial Orders		
ENVIRONMENT		
SOR/2004-209	Order 2004-66-07-01 amending the Domestic Substances List (Approved September 28, 2004) (To be published in the Canada Gazette Part II on October 20, 2004)	Canadian Environmental Protection Act, 1999

NUMBER PC-2004-	ITEM	STATUTORY AUTHORITY
SOR/2004-210	Order 2004-87-07-01 amending the Domestic Substances List (Approved September 28, 2004) (To be published in the Canada Gazette Part II on October 20, 2004)	Canadian Environmental Protection Act, 1999
INTERNATIONAL TRADE		
SOR/2004-194	Order amending the Schedule to the Export and Import of Rough Diamonds Act (Approved September 21, 2004) (To be published in the Canada Gazette Part II on October 6, 2004)	Export and Import of Rough Diamonds Act
Proposed Regulations		
CORPORATE AFFAIRS		
	Use of Patented Products for International Humanitarian Purposes Regulations , to prescribe the forms and other supplementary administrative rules that Parliament considered necessary to complement the amendments brought to the Act by Bill C-9, S.C. 2004, c. 23, An Act to amend the Patent Act and the Food and Drugs Act (The Jean Chrétien Pledge to Africa). Bill C-9, which received Royal Assent on May 14, 2004, is intended to implement an August 30th, 2003 decision of the General Council of the World Trade Organization (WTO). By that decision, WTO Members agreed to waive certain obligations in the WTO Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS) which were thought to be a potential barrier to effective responses to health emergencies. [Note: see amendments, below, to the Food and Drug Regulations on Drugs for Developing Countries.] (Published in the Canada Gazette Part I on October 2, 2004)	Patent Act
EMPLOYMENT		
	Regulations Amending the Employment Insurance Regulations , to ensure that earnings verification programs conducted by Human Resources and Skills Development Canada, formerly Human Resources Development Canada, in cooperation with employers, satisfy the requirements of federal and provincial legislation pertaining to the disclosure of personal information. (Published in the Canada Gazette Part I on September 25, 2004)	Employment Insurance Act
ENVIRONMENT		
	Regulations Amending the Sulphur in Diesel Fuel Regulations , to reduce harmful emissions from diesel-powered engines and equipment used in off-road, rail and marine applications. To accomplish this, the proposed Regulations will establish limits for sulphur levels in diesel fuel produced, imported or sold for these uses. Under the existing Sulphur in Diesel Fuel Regulations, published in Part II of the Canada Gazette on July 31, 2002, such limits exist for diesel fuel used for on-road purposes but not for off-road, rail or marine applications. The existing Regulations limit the level of sulphur in on-road diesel fuel to a maximum of 500 milligrams per kilogram (mg/kg) until 2006, when the limit will be reduced to 15 mg/kg. The proposed Regulations will introduce the same 500 mg/kg requirement for off-road, rail and marine diesel fuels starting in 2007, reducing to 15 mg/kg in 2010 for off-road diesel fuel and in 2012 for rail and marine diesel fuel. (Published in the Canada Gazette Part I on October 2, 2004)	Canadian Environmental Protection Act, 1999
FOOD AND DRUG		

NUMBER PC-2004-	ITEM	STATUTORY AUTHORITY
	Regulations Amending the Food and Drug Regulations (1367 — Imidacloprid) , to establish Maximum Residue Limits (MRLs) for imidacloprid and its metabolites containing the 6-chloropicolyl moiety of 0.08 parts per million (p.p.m.) in eggplants, and 0.05 p.p.m. in field corn grain and sweet corn kernel plus cob with husks removed. This would allow its use for the control of Colorado potato beetle on eggplants as a preplant soil incorporated treatment or as a foliar treatment; and for the control of corn flea beetle and wireworms on field corn and sweet corn as a seed treatment. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1381 — Iodosulfuron-methyl-sodium) , to establish Maximum Residue Limits (MRLs) of 0.025 parts per million (p.p.m.) for residues of iodosulfuron-methyl-sodium resulting from this use in field corn grain (the kernels of field corn), in order to permit the sale of food containing these residues. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1383 — Clothianidin) , to establish Maximum Residue Limits (MRLs) of 0.01 parts per million (p.p.m.) for residues of clothianidin resulting from this use in field corn grain (the kernels of field corn), popcorn grain, rapeseed (canola), and sweet corn kernel plus cob with husks removed, in order to permit the sale of food containing these residues. This proposed amendment would also establish an MRL of 0.01 parts per million (p.p.m.) in milk to cover residues in food derived from animals fed with crops treated with clothianidin. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1384 — Chlorimuron-ethyl) , to establish Maximum Residue Limits (MRLs) of 0.05 parts per million (p.p.m.) for residues of chlorimuron-ethyl in soybeans. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1422 — Iprovalicarb) , to establish Maximum Residue Limits (MRLs) of 2 parts per million (p.p.m.) for iprovalicarb in grapes. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1373 — Schedule F) , to update Schedule F to the Food and Drug Regulations by adding 15 medicinal ingredients to Part I of Schedule F (Anti-thymocyte globulin, Bivalirudin, Drotrecogin, Dutasteride, Enfuvirtide, Ertapenem and its salts, Ezetimibe, Fondaparinux sodium, Formoterol and its salts, Levetiracetam, Pimecrolimus, Rosuvastatin and its salts, Telithromycin and its salts and derivatives, Tenofovir and its salts and derivatives, and Treprostinil and its salts), and by amending the listing for one medicinal ingredient in Part I of Schedule F. (Published in the Canada Gazette Part I on October 2, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1386 — Kaolin) , to list kaolin in subsection B.15.002(2). (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1392 — Isoxadifen-ethyl) , to establish Maximum Residue Limits (MRLs) of 0.08 parts per million (p.p.m.) for residues of isoxadifen-ethyl in field corn grain (the kernels of field corn). (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act
	Regulations Amending the Food and Drug Regulations (1395 — Triflumizole) , to establish Maximum Residue Limits (MRLs) for triflumizole, including its metabolites, of 2.5 parts per million (p.p.m.) in grapes, 1.5 p.p.m. in sour cherries and sweet cherries, and 0.5 p.p.m. in apples and pears. (Published in the Canada Gazette Part I on September 25, 2004)	Food and Drug Act

Regulations Amending the Food and Drug Regulations (1404 — Daminozide), to decrease the Maximum Residue Limits (MRLs) for residues of daminozide and its metabolite in all food crops to the limit of quantification of 0.02 p.p.m. for enforcement purposes. This proposed regulatory amendment would also amend the chemical name of daminozide in order to comply with international nomenclature conventions. (Published in the Canada Gazette Part I on September 25, 2004)

Food and Drug Act

Regulations Amending the Food and Drug Regulations (1402 — Drugs for Developing Countries) and Regulations Amending the Medical Devices Regulations (Developing Countries), to add Division 7, entitled "Sale of Drugs for the Purposes of Implementing the General Council Decision," be added to the Food and Drug Regulations in order to implement the General Council Decision waiving certain provisions of the Agreement on Trade-Related Intellectual Property Rights (TRIPS) which essentially prevented nations in need from importing less expensive versions of pharmaceutical products. The proposed Division 7 outlines submission requirements, conditions for the Minister of Health to notify the Commissioner of Patents, and pre-export notification requirements. The changes would facilitate affordable access to medicines to treat HIV/AIDS, malaria, tuberculosis, and other epidemics, in least-developed and developing countries with insufficient or no domestic capacity to manufacture pharmaceutical products. Canada has certain obligations under the General Council Decision, such as the requirement to distinguish exported products from the domestic version of the product and to identify the product as having been manufactured under this program. This requirement serves as a mechanism to address the risk of diversion and re-importation of products. (Published in the Canada Gazette Part I on September 25, 2004)

Food and Drug Act

TAX CHANGES

Regulations Amending the Income Tax Regulations (Luxembourg and Warsaw Stock Exchanges), to amend Section 3201 of the Income Tax Regulations, to add the Luxembourg Stock Exchange and the main and parallel markets of the Warsaw Stock Exchange to the list of stock exchanges outside Canada. These amendments apply on and after June 24, 2003. (Published in the Canada Gazette Part I on September 25, 2004)

Income Tax Act

TRANSPORTATION

Regulations Amending the Atlantic Pilotage Tariff Regulations, 1996, to amend tariff charges for 2005 in five compulsory pilotage areas, effective January 1, 2005: Halifax, Nova Scotia, Pugwash, Nova Scotia, Restigouche, New Brunswick, Humber Arm, Newfoundland and Labrador, and Bay of Exploits, Newfoundland and Labrador. All other tariff charges in the remaining compulsory and noncompulsory pilotage areas will remain unchanged at this time. (Published in the Canada Gazette Part I on September 25, 2004)

<h3>JUSTICE</h3>		
SOR/2004-239	Alberta Sex Offender Information Registration Regulations (Approved October 26, 2004) (To be published in the Canada Gazette Part II on November 17, 2004)	Sex Offender Information Registration Act
<h2>Proposed Regulations</h2>		
<h3>ENVIRONMENT</h3>		
	Regulations Repealing the New Substances Notification Regulations , to repeal the New Substances Notification Regulations on the day on which the New Substances Notification Regulations (Chemicals and Polymers) are registered. (Published in the Canada Gazette Part I on October 30, 2004)	Canadian Environmental Protection Act, 1999
	New Substances Notification Regulations (Chemicals and Polymers) , to improve the effectiveness and efficiency of the new substances notification and assessment process for chemicals and polymers. (Published in the Canada Gazette Part I on October 30, 2004)	Canadian Environmental Protection Act, 1999
	Regulations Amending the New Substances Fees Regulations , to harmonize the New Substances Fees Regulations (NSFR) with the proposed New Substances Notification Regulations (Chemicals and Polymers). The NSFR, as amended by the proposed Regulations, will apply only to the proposed NSNR (Chemicals and Polymers). Structural changes to the NSNR (Chemicals and Polymers) necessitate these harmonization amendments to the NSFR. The proposed Regulations, the NSNR (Chemicals and Polymers), and the NSNR (Organisms) are expected to come into force at the same time in early 2005. (Published in the Canada Gazette Part I on October 30, 2004)	Canadian Environmental Protection Act, 1999

New Substances Notification Regulations (Organisms), to implement part of a new regulatory structure for new substances notification under the Canadian Environmental Protection Act, 1999. The proposed new regulations will simplify the existing NSNR for notifiers by grouping together regulatory provisions for substances that are of a similar nature (i.e. animate, living organisms, versus inanimate, chemicals and polymers), and share similar information requirements and notification triggers. Provisions for transitional substances in the existing regulations have expired, and are therefore not included in the proposed Regulations. The definition of "research and development substance" is revised in the proposed Regulations to include an explicit reference to organisms and scale-up trials.³ In effect, this amendment formalizes the implicit inclusion of scale-up trials in the definition of "research and development substance" under the existing Regulations. The proposed Regulations also contain a requirement for notifiers to provide a signed certification attesting to the accuracy and completeness of notification information, which formalizes the existing administrative requirement specified in the Guidelines for the Notification and Testing of New Substances: Organisms. (Published in the Canada Gazette Part I on October 30, 2004)

Proposed Regulations

ENVIRONMENT

Chromium Electroplating, Chromium Anodizing and Reverse Etching Regulations, to reduce air emissions of hexavalent chromium compounds (HVC) from facilities using chromic acid in their chromium electroplating, chromium anodizing or reverse etching operations. The proposed Regulations apply to any person or persons (user or users) using more than 10 kilograms of chromium trioxide (CrO₃) per year. The users will be required to control the releases of HVC within the limits detailed below. To facilitate monitoring and enforcement of the proposed Regulations, users must retain all records, reports, plans, analytical methods, results from sampling, analysis, and other information for five years. Users that release HVC to the environment from a point source (e.g. a stack), will be required to: use a control device in their HVC emission collection system; and meet the following release limits for emissions of HVC, if measured separately, or, in any other case, of total chromium, for each point source without using dilution air: 0.2 milligram per dry standard cubic metre (mg/dscm) within 6 months after the day on which the proposed Regulations come into force, and 0.03 mg/dscm within 30 months after the day on which the proposed Regulations come into force. (Published in the Canada Gazette Part I on November 6, 2004)

Canadian Environmental Protection Act, 1999

FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1393 — Fenamidone), to establish Maximum Residue Limits (MRLs) for fenamidone of 0.02 parts per million (p.p.m.) in potatoes. (Published in the Canada Gazette Part I on November 6, 2004)

Food and Drug Act

Regulations Amending the Food and Drug Regulations (1394 — Famoxadone), to establish Maximum Residue Limits (MRLs) for famoxadone of 1.0 part per million (p.p.m.) in tomatoes, 0.06 p.p.m. in milk fat, 0.05 p.p.m. in liver of cattle, goats, horses and sheep, and 0.02 p.p.m. in fat of cattle, goats, horses and sheep, and potatoes. (Published in the Canada Gazette Part I on November 6, 2004)

Food and Drug Act

Regulations Amending the Food and Drug Regulations (1400 — Picloram), to establish Maximum Residue Limits (MRLs) for picloram of 0.4 parts per million (p.p.m.) in kidney and meat by-products of cattle, goats, hogs, horses and sheep, 0.2 p.p.m. in kidney and meat by-products of poultry and in wheat, 0.1 p.p.m. in barley, and 0.05 p.p.m. in eggs, in fat, liver and meat of cattle, goats, hogs, horses, poultry and sheep, and in milk. (Published in the Canada Gazette Part I on November 6, 2004)

Food and Drug Act

Regulations Amending the Food and Drug Regulations (1412 — Difenoconazole), to establish Maximum Residue Limits (MRLs) for difenoconazole of 0.01 parts per million (p.p.m.) in field corn grain and sweet corn kernel plus cob with husks removed. (Published in the Canada Gazette Part I on November 6, 2004)

Food and Drug Act

Regulations Amending the Food and Drug Regulations (1413 — Dimethomorph), to establish Maximum Residue Limits (MRLs) for dimethomorph of 0.01 parts per million (p.p.m.) in potatoes. (Published in the Canada Gazette Part I on November 6, 2004)
